EN 60998-2-1 (2004)

Low voltage direct. 2014/35/EU

DIRECTIVE RoHS 2011/65/EU

**GENERAL CHARACTERISTICS**

Commercial Series	CONNECTO Series
Synthetical description	WIRE CONNECTOR BLOCK

**Description**

The CONNECTO Series Wire Connector Block is engineered for precision and reliability in electrical installations. This wire connector block features a connecting capacity of 4mm<sup>2</sup>, ensuring robust and secure connections. Constructed from high-quality brass, it offers excellent conductivity and durability. The transparent design allows for easy inspection and verification of connections. With a pitch of 12.2mm, it is designed to accommodate a variety of wiring configurations. The CONNECTO Series Wire Connector Block is an essential component for professionals seeking dependable performance in their electrical systems.

**PHYSICAL CHARACTERISTICS**

Colour	TRANSPARENT
Material	BRASS

**DIMENSIONAL CHARACTERISTICS**

Connecting capacity	4mm <sup>2</sup>
Dimensions	120mm
Pitch	12,2mm
