■ GENERAL CHARACTERISTICS

Commercial Series	WBOX Series
Synthetical description	FLUSH MOUNTING BOX

Description

The WBOX Series Flush Mounting Box is a robust solution designed for professional installations. Measuring 196x152x70mm, this white thermoplastic enclosure ensures durability and reliability. It features a flush mounting design, making it suitable for seamless integration into various environments. The box includes a cover and screws for complete assembly, though it does not come with a separator. This junction box, with its three compartments, offers ample space for wiring and connections, ensuring efficient organization and protection of electrical components.
